

Cyber Energy Selected Intisoft's Solution to Deploy IcnParts.com, A Major Electronic Components Marketplace in Asia

Hong Kong (September 5, 2000) – Intisoft Commerce Technology Lab, one of the Asia's leading e-business software providers, today announced that Cyber Energy, an experience semi-fixed resistor manufacturer, has selected Intisoft's Xentric E-Marketplace solutions to integrate content management, e-auction and transaction capabilities of its upcoming web portal, <http://www.icnparts.com>. Intisoft's solutions will provide a powerful internet architecture making differentiation from competitors, extend automated e-commerce links with potential buyers, sellers and business partners, and more efficient to operate via Internet.

Cyber Energy Ltd. has the vision to use the millennium way to manage the sales of their electronic component parts directly over the Internet on a user-friendly, web-enabled, transaction and exchange platform in ICnParts.com. Cyber Energy aims to expand the market to serve the electronics and electrical market with maximum speed, reliability and cost-savings.

Intisoft will assist Cyber Energy to provide a comprehensive marketplace for all enterprises in the electronic component industry to conduct business over the Net. For example, buyers can aggregate demand from all component-required manufacturers, and suppliers can arrange available products and negotiate with different buyers. ICnParts.com has demonstrated the ability to execute in all aspects of the business.

Asia is a significant market for the trading of electronic parts and components, as the total trading volume in 1999 reached US\$375 billion. ICnParts.com represents a market demand in the vertical IC and parts e-commerce marketplace for all buyers and suppliers in the industry.

Together with Intisoft's Xentric solutions, ICnParts.com will provide a one-stop service to all enterprises such as online retail store, online transaction management, e-auction, dynamic negotiations and more.

About Cyber Energy Ltd.
